GopherCon Israel 2021 Workshops will be a virtual conference (you know why :). The conference will take place on February 11th, and will feature several workshops by leading Go developers.

GopherCon is focused on the Go programming language, nevertheless, the topics to be presented relate to many other domains, including: DevOps, cloud computing, web programming, hacking and more.

Why Sponsor?

GopherCon is a non-profit conference that is run by volunteers led by HaMakor, the Israeli society for free and open source software. Sponsoring GopherCon will provide you with several benefits:

- **Recruiting** The employment market is very competitive and it is becoming incredibly difficult to find quality programmers. Sponsorship will expose you to approximately 300 potential new employees.
- **Branding** It is important that the community knows that your company uses Go. By sponsoring the conference, you gain recognition as a supporter of Go and open source software.
- **Supporting Go** The Go ecosystem relies on sponsorships and corporate. involvement to continue to grow.
- **Supporting Open Source** Go, as a programming language, is a significant piece of the open source ecosystem.

How To Sponsor?

For a sponsorship of ₪5,000, you will get the following:

- 3 Workshop tickets
- Place on the conference web site with your logo, description and a link to your open positions web page
- Your Logo on the conference videos

A portion of the conference earnings will be donated to GoBridge!

If you're interested in sponsoring, please contact
